

IPN Vertical Carousel System

Working with you to develop tailor-made intra-logistics solutions to fit your needs

- Free onsite survey to define the best solution with you
- Short assembly time
- Low consumption and low maintenance costs
- Full service from one source: design, installation, software and support

IPN storage and retrieval vertical carousels optimise the usage of floor space to improve storage space and ease operations.

IPNs' carriers offer flexible and optimised storage of goods and rotate to deliver items at an ergonomically safe and convenient height in just a few seconds.

Discover the Mini "Plug and Play" Carousel

The power of the IPN in a compact carousel up to 4m high, designed to fit through standard double exit doorway for easy plug&play installation. It ensures 100% protection of high value articles with security features from lockable doors to advanced access

TORNADO
STORAGE SOLUTIONS LTD

MAXIMUM RESULTS ON MINIMUM SPACE

- Up to 90% more stock on the same floorprint
- 250% increase in throughput
- 2.5 times increased picking rate
- 99.9% picking accuracy
- 2/3 less handling errors
- Retrieval points can be set up on different floors
- A single worker using a vertical carousel can be as productive as three workers picking from static shelving

OPTIMISATION OF SPACE IN A STRONG AND FLEXIBLE STRUCTURE FOR FASTER AND BETTER OPERATIONS

BOOST YOUR PRODUCTIVITY WITH HIGH DENSITY INTELLIGENT VERTICAL CAROUSEL STORAGE
